

LDA Watch Update on Shanganagh Project and Dundrum Project

The following is an update supplied by the Land Development Agency on March 31st 2022:

Shanganagh:

- The contractor tender process is ongoing and construction is expected to start in the Autumn

Dundrum:

- The planning application for 977 units has been lodged today (30/03/1980(2022?)) for the CMH site with a construction commencement subject to an implementable grant of planning permission

- *For reference, the highlighted 2022 is an expected error. The original correspondence says 1980, but we can presume this is supposed to say 2022.*
